Mixed Ancestry

63.2% Great Pyrenees

31.2% Anatolian Shepherd Dog

5.6% Saint Bernard

Great Pyrenees

The Great Pyrenees is an exceptionally loving dog whose primary function is to protect sheep, goats, livestock, people, children, grass, flowers, the moon, lawn furniture, etc., from any real or imaginary predators that may intrude on your personal space. They have a strong build and an amazing thick white coat that exudes elegance and majesty. They make a great family dog because of their intelligence and steady temperament.

Anatolian Shepherd Dog

The Anatolian Shepherd Dog is a native of Turkey, where he was developed as a shepherd's companion and livestock guardian. He was bred to resemble the size and color of the livestock he defended so predators would not detect him among the flock. Sometimes called the Anatolian Karabash Dog, he's a fiercely loyal guard dog and a large, impressive dog breed, weighing 120 to 150 pounds at maturity.

Saint Bernard

The Saint Bernard is a gentle giant that has been saving lives in the Swiss Alps for centuries. These easy-going guys can make great family additions, as long as you are okay with cleaning up slobber.
